

California Family Resource Association

Strong Families. Strong Communities.

July 31, 2020

Dear Colleagues,

I am pleased to send to you the Family Resource Center COVID-19 Emergency Relief Fund final report. In April Governor Newsom acknowledged the role and capacity of family resource centers within California communities allocating \$3 million for COVID-19 services and supports. Working in partnership with the California Department of Social Services and the Office of Child Abuse Prevention within the department, the California Family Resource Association (CFRA) distributed funds to 347 family resource centers in 54 of 58 counties. As you will see in the report, the family resource centers rapidly responded to needs of families and communities throughout the State serving almost 120,000 unduplicated individuals from April 13 through June 30.

The need for these critical services is ongoing as COVID-19 continues, unemployment levels increase, and families remain in isolation. We are grateful to the staff and leadership in the family resource centers for their dedication and to the CFRA team for their work on getting the resources out effectively and efficiently.

Sincerely,

Sheila Boxley
